

SWIM

ACROSS AMERICA

★ MAKING WAVES TO DEFEAT CANCER ★

TAMPA BAY

THE SAA MISSION

We unite the swimming community by hosting benefit swims that raise money to fund life saving cancer research and clinical trials.

THE NEED

Doctors with ideas to fight cancer can't get the funding for clinical trials and research.

OUR SOLUTION

Host Charity Swims to raise money that funds clinical trials and cancer research.

YOUR IMPACT

Over \$100 million raised for SAA grants to our beneficiaries has turned into an estimated \$200 million in new funding that they might otherwise not have received.

ANYONE CAN JOIN WITH THE SAA MY WAY VIRTUAL OPTION

WHAT: We introduced the **SAA My WAY** program to enable our participants and teams to Make Waves in the Fight Against Cancer if you don't want to swim. You can Walk, Run, Bike, Hike, Climb... get CREATIVE !

WHEN: You decide - your "SAA My Way" can be done on your timeline as an individual or as a team. Perfect for corporate teams to include everyone!

WHAT: All participants receive a SAA swag kit in the mail after registering! Learn more at swimacrossamerica.org/saamyway

SAA – TAMPA BAY BENEFICIARY

Proceeds from our swim support the research of Dr. Jonathan Metts at Johns Hopkins All Children's Hospital.

Current Grant Recipient
Dr. Jonathan Metts

Research

Dr. Metts is the first to implement a promising adult trial in a pediatric setting. This Clinical Trial and Biobank Study focuses on TIL (tumor infiltrating lymphocytes) in pediatric solid tumors.

RESEARCH EMPHASIS

TUMOR INFILTRATING LYMPHOCYTES

IMMUNOTHERAPY

PEDIATRIC CANCER
